

# RF 14-35mm F4L IS USM

**CAPTURE  
THE WIDER VIEW.  
WHEREVER YOU ARE.**

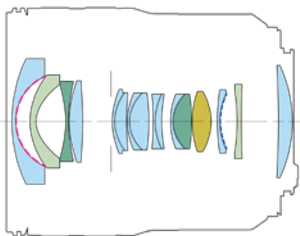

## Features

- Superb wide-angle field-of-view
- 5.5-stops of stabilisation for shake-free images
- UD and aspherical elements for exceptionally sharpness and contrast
- Nano USM for smooth, fast and silent operation
- SWC and ASC coatings to prevent flare and ghosting

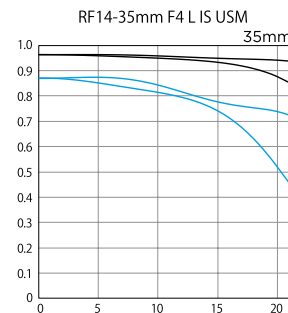

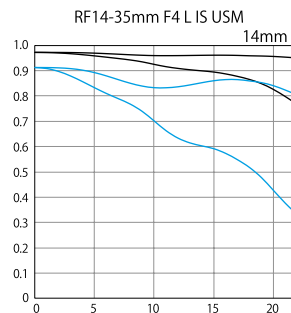

When space is tight, reach for this compact ultra-wide zoom to capture every detail. Save weight in your gadget bag yet still achieve razor sharp results with the compact RF 14-35mm F4L IS USM ultra-wide zoom lens.

It's a high-performance RF lens appealing to those who seek compactness over fast apertures, yet still demand exceptional L-series performance, stunning image quality and superb weather-resistance. With a constant f/4 aperture, silent autofocus, 5.5-stop image stabilisation and a 14-35mm focal length incorporating Aspherical and UD elements for crystal clear results, it's a great lens for landscapes, architecture and smooth, sharp video.
