- 4G LTE (Japan): Band 1, Band 3, Band 8, Band 18, Band 19
- WCDMA: Band 1, Band 8

## Customizable Watch Face with Fun Animated Wallpaper

Preset with a selection of new animated wallpaper. You can also customize your own watch face with your selfie or photos sent from others in the chat room.

## Heart Rate Monitoring with High Heart Rate Alert

PPG Heart Rate Monitoring is added into the new R1s. Parents can set the high heart rate alert in the application remotely and once the R1s detected kid is running it will auto-detect the heart rate and will alert the user to slow down if exceeded the beats per minute set up by parents.

## Improved Water Resistance Rating IP68

It has improved to IP68 waterproof rating from the previous version of R1. The improvement sustains stronger and longer water resistance. Tested in the lab certified with 1meter water depth for an hour.

## Multiple Preset Texts For Chat

Chat with parent and friends using Emoji and Text. You can scroll to the right and choose from a list of handy and common phrases that the kids like, kids can now have a speedy reply without using the voice message.

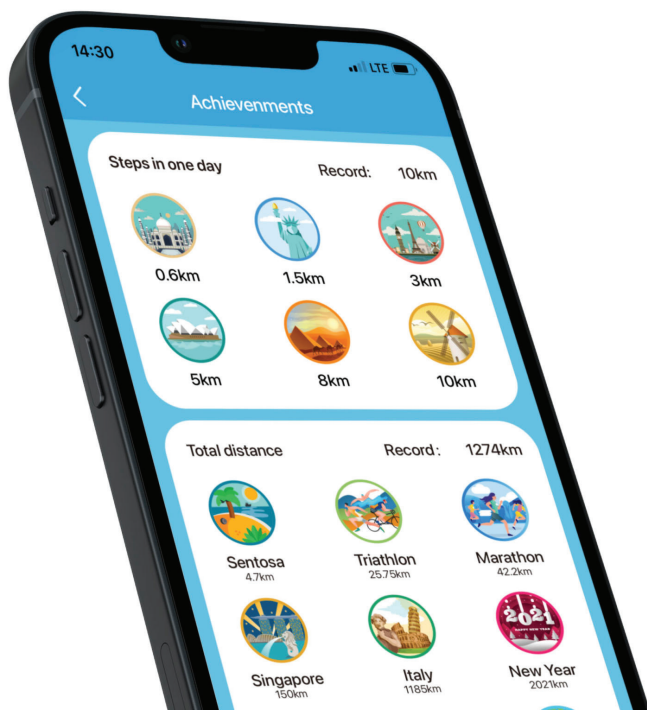

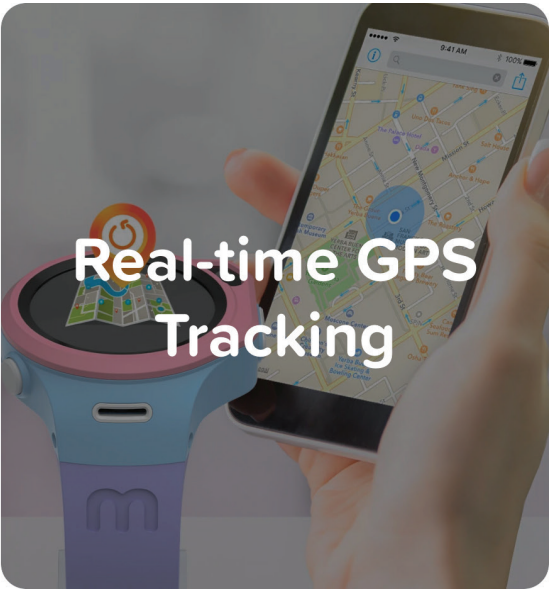

## Personalised Reminder Voice or Silent

A new way to set up the reminder or alarm ringtone, train the kids to remind themselves by adding the voice message as the alarm or reminder. Parents can also set up the wake up call or alarm by their own customised recorded voice message~

## Motivate the Kids to Move~ Collecting different badges

The activity tracker shows your achievement and encourages the young one to achieve their daily target. Rewards with unique badges. Be active and have fun~
