

RF 75-300mm F4-5.6

BRING LIFE EVEN CLOSER

A classic Canon 75-300mm lens for the modern RF mount, the RF 75-300mm F4-5.6 is a lightweight, low-priced telephoto zoom for users who want to extend their reach for wildlife, family sports events and candid portraits.

75-300mm zoom

120-480mm equivalent on APS-C

Compact size

Lightweight design

1.5m minimum focusing distance at 300mm

7-blade circular aperture

Pull faraway subjects into view

Reach out and capture close-up images of subjects that you can't physically get close to, with the 75-300mm range. Shoot action from the sidelines, wonderful wildlife images and get closer than you thought possible.

Enjoy creative freedom with a telephoto zoom

Zoom in to isolate the subject for maximum impact, zoom out to pull more of the surroundings into your picture. At 300mm you can get as close as 1.5m to fill the frame with detail.

Create impressive, artistic images

Use the telephoto reach and widest available aperture to achieve superb separation between your subject and the background for a professional look.

Sharp subjects, pillow-soft backgrounds

Enjoy beautiful background blur thanks to the seven aperture blades, while the autofocus motor reliably and accurately keeps your subject in sharp focus.

An easy way to extend your reach

A great value telephoto kit zoom lens that won't weigh you down, with a compact, lightweight design that's ready to go anywhere from a local football match to a remote nature reserve.
