165W GaN

Power Delivery Wall Charger

Incredibly powerful and compact! The latest GaN technology powered by a Power Integrations solution, make this the ideal notebook, tablet, phone and accessories fast charger. Charge up to 4 devices at the same time!

This compact but powerfull wall charger can power / charge up to three devices simultaneously, with a combined power of 165W. Using the latest Power Delivery technology your devices are charged efficiently and fast. The high quality design and material makes this a durable product, replacing all other chargers. Although this product has an European type connector, this product can be used all over the world with an socket adapter. The input range the adapter can handle is between 100 and 240 Volt. This product should be used indoors only.
